LEVELMASTER RAPID LEVEL 30

ONE PART, RAPID SET FLEXIBLE, LATEX FLOOR LEVELLING COMPOUND

An interior and exterior grade, protein-free, flexible, latex modified, high performance cementitious floor levelling compound suitable for use at thicknesses from 3mm to 50mm (up to 60mm with added aggregate).

Conforms to EN13813 CT-C23-F6.

An ideal underlay for levelling most common subfloors prior to the installation of floor coverings such as ceramic floor tiles, carpet, vinyl and wood flooring (minimum levelling thickness 5mm). Suitable for use with underfloor heating. It also contains powdered latex eliminating the need for separate expensive latex liquids.

Benefits:

- **Sets in 30 minutes**
- **Flexible**
- **Suitable for application up to 50mm in one layer**
- **Suitable for both internal and external use**
- **Single pack - Preblended, requiring only addition of water.**
- **Low odour formulation**
- **Suitable for use with underfloor heating**

Specification Summary
