SURFACE & HAND SANITISER

Fast Acting Surface Disinfectant

PROFESSIONAL CLEANING RANGE

Description:

A ready to use liquid disinfectant for use on surfaces and hands. Rapid and effective against a wide range of harmful micro-organisms. "WHO" recommended formulation.

Uses

A ready-to-use disinfectant for surfaces and hands. No need for dilution.

Application

For surfaces, apply a generous amount of sanitiser and leave for 30 seconds. Wipe with a clean cloth or paper towel.

For hands, apply a palmful of alcohol-based hand rub and cover all surfaces of the hands. Rub until dry.

Limitations

For external use only. NOT SAFE FOR CONSUMPTION. Do not dilute. Avoid contact with eyes. Keep out of the reach of children. Test on delicate surfaces prior to full application.

Container Size

Supplied in 1L spray bottles.

Shelf Life

12 months from date of manufacture when stored in unopened bottles.

Storage Conditions

Store upright, in cool conditions.

Disposal of Containers

Do not leave empty containers where residue could be harmful to children, animals or the environment. Remove any containers to a central disposal point in accordance with local regulations.

Health & Safety

Please refer to separate material safety data sheet for full handling, use and storage instructions. Keep out of reach of

children. It is the users responsibility to determine suitability for use. If in doubt contact our Technical Department for advice.

Note: this information is for general guidance only, since site conditions and labour are beyond our control. It is recommended that users make their own tests to determine suitability.

Specification Summary

Appearance	Clear Liquid
Flashpoint	17.5°C

Part of the Bond It "Covid-19" Range

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties rights and, if necessary clarifying the position. Recommendations for use do not constitute a warranty, either expressed or implied, of the fitness or suitability of the products for a particular purpose.
