COLOURED WOOD PRESERVATIVE

Universal Coloured Wood Preserving Fungicide

WOODGUARD WOOD PROTECTION RANGE

HSE NO
10764

Description:

A fungicide specifically formulated for use against wood rotting and staining fungi, algae, lichen and other growths on wood surfaces.

Benefits:

- ◆ Protects against wood rot & decay.
- ◆ Contains fungicide.
- ◆ Deep penetration.
- ◆ Durable UV fade resistant colours.
- ◆ Low odour.
- ◆ Quick drying.
- ◆ Non-flammable.

Uses

An ideal product for the protection of outdoor timber structures such as sheds, fences, trellis, pergolas, gazebos etc and can be applied to all rough, sawn or smooth timbers.

Available in a range of good UV fade resistant colours that provide deep penetration into timber and leave a colour finish with the natural timber grain texture still visible. It has virtually no odour and can be applied either by brush or low pressure spray to provide lasting protection. The formulation is water-based producing a non-flammable, quick drying product and is ready to apply direct from the container.

Pre-Application

Wood should be clean and free from wood dust and other contaminants. Always try on a small area (allowing to dry) to ensure compatibility with timber which is being treated. Colour displayed is representative only.

Application

SHAKE WELL BEFORE USE. Apply by brush or low pressure spay. Apply at 200ml/m² (1L per 5m²). Product may require 2-3 coats to achieve required finish/loading, depending on porosity of surface.

Drying: Product is touch dry in 1 hour depending on wood and ambient conditions.

Clean Up: Remove most of product from brushes with tissue and wash brush with soap and clean water.

Lifespan: This will depend on weathering/wood type, etc. The more extreme heat and wet weather events, the shorter the life time of the product will be. However as a guide the product, once cured should last at least 2 years+ under normal weathering.

Container Size

5L metal tins.

Coverage

Approximately 25m² per 5L tin (when applied at 200ml/m²).

Colour

Available in dark brown, light brown, green and grey.

Shelf Life

Product is stable in original packaging for 2 years from date of manufacture, when stored according to manufacturers instructions.

Storage Conditions

Protect from frost. Store between 5 and 30°C. Store in original container. Store away from food and/or feedstuffs. Keep container tightly closed. Must only be kept in original packaging.

Disposal of Containers

Dispose of waste product and contaminated packaging via a licensed waste disposal contractor. Empty packaging should be placed in normal waste disposal. Hazardous waste key: 020108 - Agrochemical waste containing dangerous substances. This product is registered and manufactured in the United Kingdom.

Health & Safety

Please refer to separate material safety data sheet for full handling, use and storage instructions. Keep out of reach of children. It is the users responsibility to determine suitability for use. If in doubt contact our Technical Department for advice. **Note: this information is for general guidance only, since site conditions and labour are beyond our control. It is recommended that users make their own tests to determine suitability.**
